Event Overview:

The Inter-Class Cup, organized by the Class of 112 Student Association, has finally come to a successful close! Seeing everyone give their all on the court and share laughs on the sidelines made us feel that this event—planned entirely by our Junior team—was truly meaningful.

To us, this was more than just a series of ball games. More importantly, it provided an opportunity for the "Rec-Sport" family to gather: from alumni who graduated years ago to current students and the faculty who have always supported us. Whether it was the intense basketball matchups or the spirited rounds of badminton and volleyball, every moment showcased the pure, passionate spirit of our department.

We are deeply grateful to Director Hsieh Li-wen for taking the time to join us and even stepping onto the court to play. His approachable nature truly set the tone for the day. This event served as a bridge, allowing underclassmen to connect with alumni already in the workforce, listen to their experiences, and gain a clearer vision for their own futures.

A huge thank you to all the alumni, faculty, and students who returned. You are what made this Inter-Class Cup complete!
